

Who makes up the Missouri Water and Wastewater Review Committee?

MO Department of Economic Development

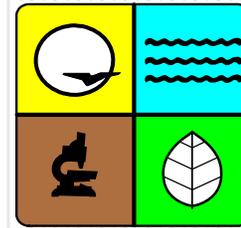

MO Department of Natural Resources

USDA Rural Development

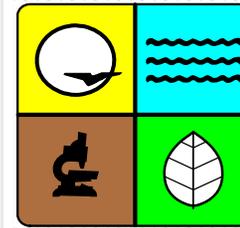

What is the Purpose of the Committee

To provide a coordinated opportunity for communities to gain access to public financing to meet their infrastructure needs. And, to ensure that public financing is used for efficient and environmentally safe systems that will help sustain Missouri communities.

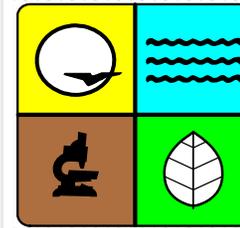

Why do I have to go through the MWWRC?

- Combines efforts of three public infrastructure financing agencies
- Ensures equitable use of grant and loan funds
- Assures sustainable systems

How does the process work?

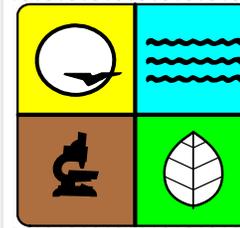

- Community submits a two-page proposal plus a preliminary engineering report (with 5 copies, for a total of 6)
- Committee usually meets once per month
- Proposals received after the first of the month are placed on the agenda for the following month
- Committee provides a response letter (and/or invitation to apply, if applicable)
- Letters address the proposed finance package, design strategy, beneficiaries, and need for the project

Where can I obtain the MWWRC proposal?

- Update proposal is located on the below website.
