

# Building Resilience and Planning for an Uncertain Future: New Jersey Small Water Systems Training

Tuesday, January 25, 2022

## Presenters

**Chris Sturm**  
*Managing Director for  
Policy and Water*  
**New Jersey Future**

Chris Sturm is Managing Director for Policy and Water at New Jersey Future, where her work focuses on efforts to upgrade water infrastructure to support healthy, just and prosperous communities. She facilitates the Jersey Water Works collaborative and manages her organization’s work on green infrastructure, water financing, and community organizing. Chris has built successful teams and collaborations to accomplish legislative, regulatory and programmatic innovations in areas including climate resilience, state and regional planning, land preservation, and compact, equitable growth. She is a member of the Clean Water Council of New Jersey and the U.S. Water Alliance.

**Andy Kricun**  
*Managing Director*  
**Moonshot Missions**

Andy Kricun is Managing Director at Moonshot Missions, where he and his team work to help communities to implement technologies and management approaches that reduce the cost of operating a water system, improve performance, and solve environmental and public health challenges. Prior to joining Moonshot Missions, Andy was the CEO and CE of the Camden County Municipal Utilities Authority, where under his leadership the Authority improved performance and reduced rates. Andy is active in a wide range of national and local water organizations.

**David Zimmer**  
*Executive Director*  
**New Jersey  
Infrastructure Bank**

David Zimmer is Executive Director of the New Jersey Infrastructure Bank, the State’s lending Authority which partners with the NJDEP and the NJDOT to provide low interest rate loans to government units and authorities for environmental and local transportation infrastructure projects respectively. During his tenure, David has focused on introducing several new successful loan programs and worked to overhaul the I-Bank’s credit policy to bring transparency and clarity to borrowers. He has also improved the efficiency and effectiveness of the I-Bank by developing two modern, web-based loan management systems.
