

Step 1: Establish Organizational Commitment

Energy Management for Small Water Systems

Is your team
defined?

Is your team
diverse?

Does it represent
various interests
and responsibilities
within the utility?

Team Responsibilities

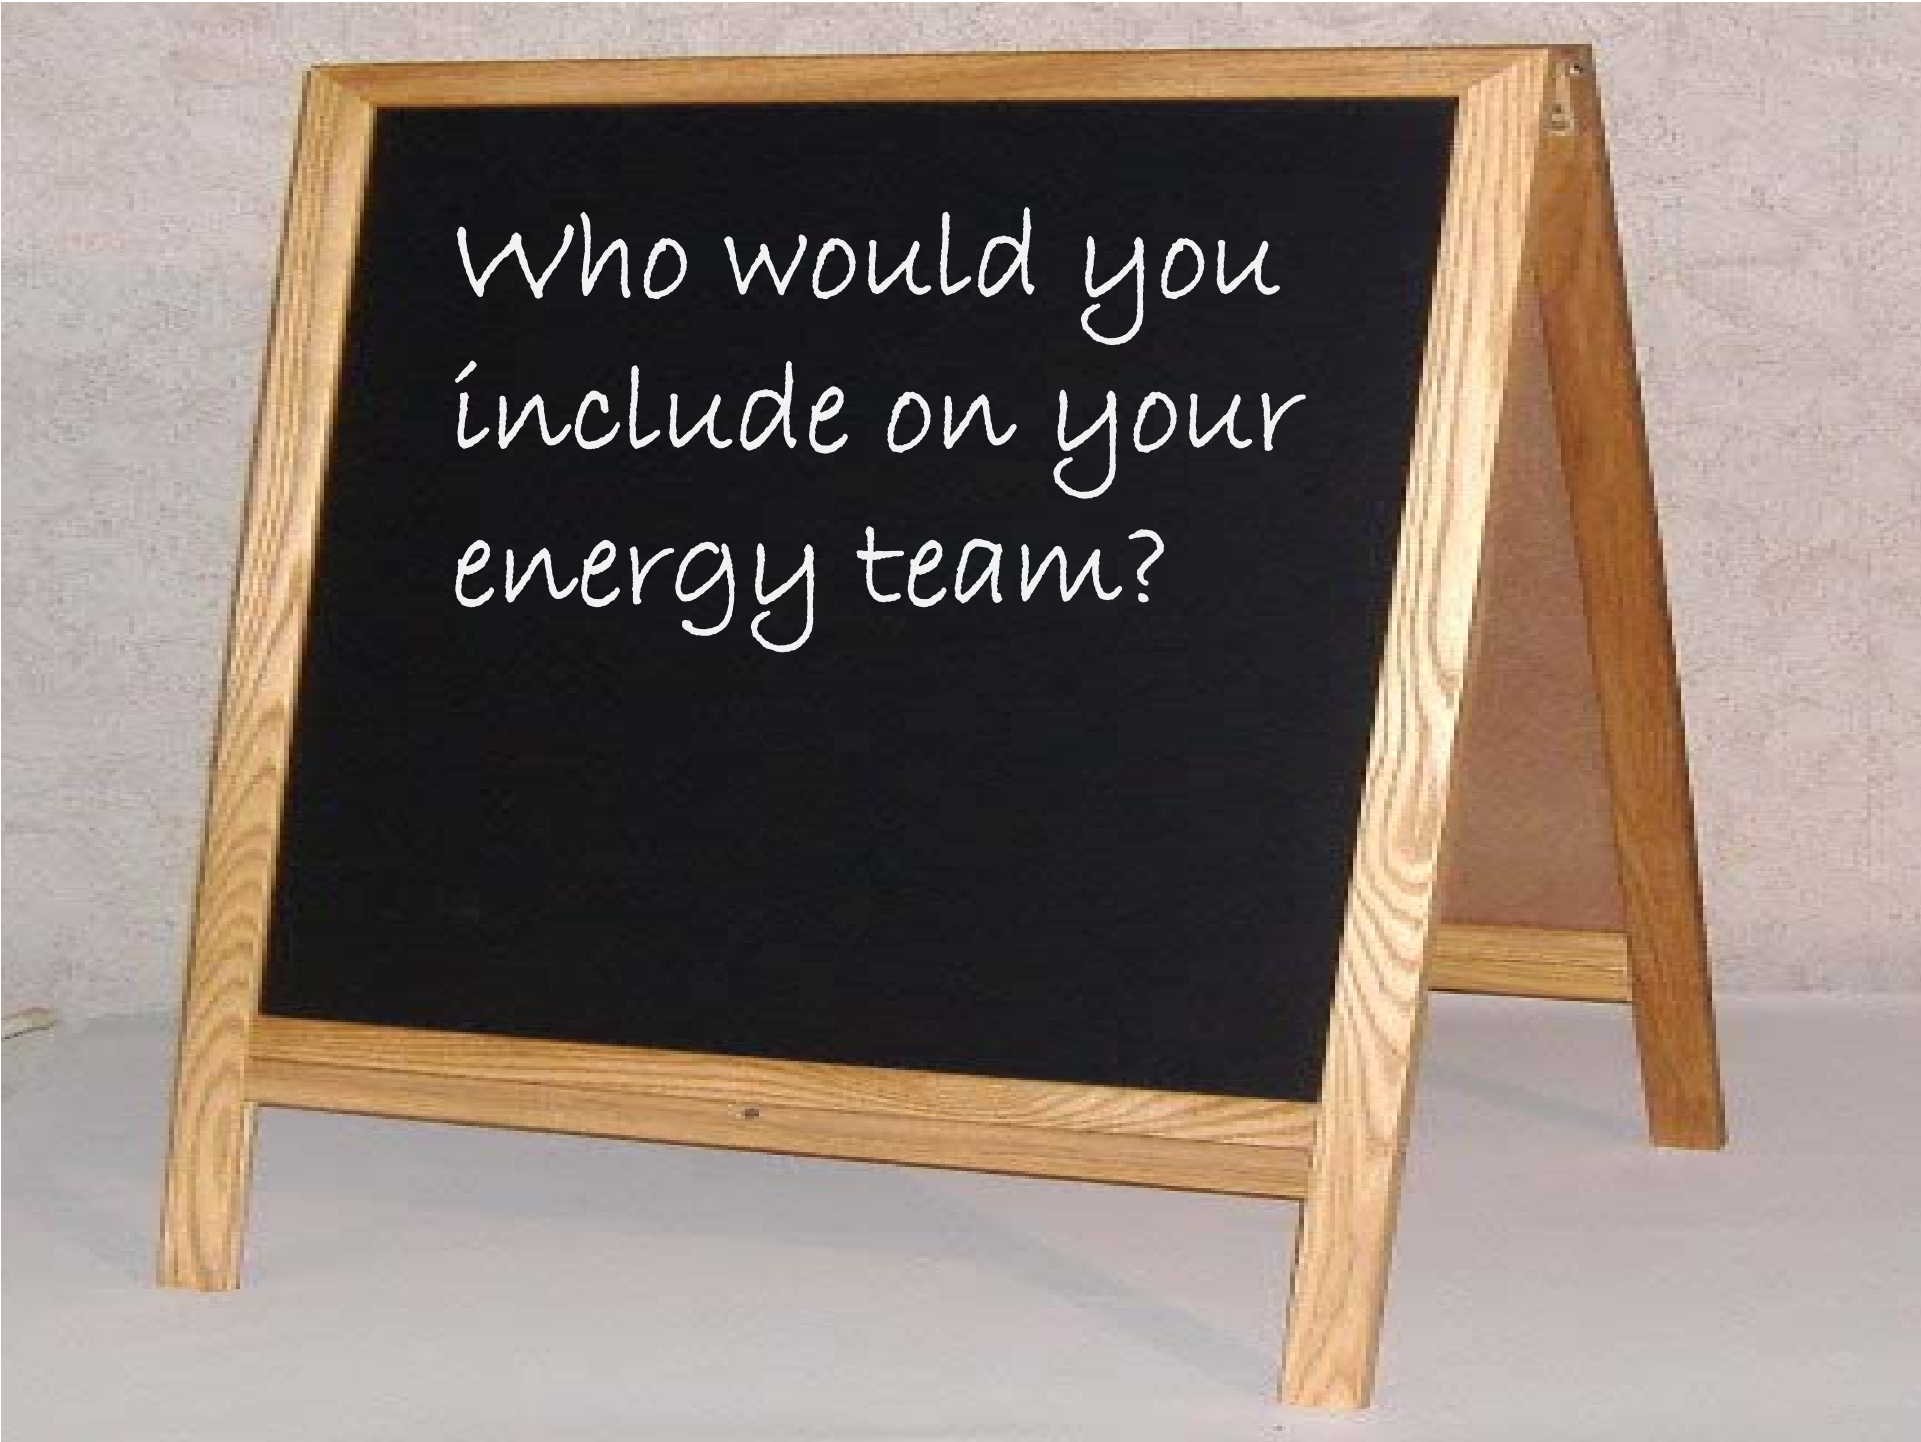

establish goals

provide information
to others

develop the plan

define needed
resources

A wooden easel with a blackboard. The blackboard has the question "Who would you include on your energy team?" written in white chalk. The easel is made of light-colored wood and stands on a light-colored surface against a light-colored wall.

Who would you
include on your
energy team?
